## REASONS FOR ALLOWANCE

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites an electroluminescent lamp molded to one of said compartment body and said cover. In the appeal brief, the applicant argued that Schenk et al. has not disclosed "the lamp molded to one of said compartment body and said cover"; and there is no motivation to combine the teachings of Schenk and Anderson because the teachings of Schenk and Anderson solve a different set of problems. The applicant's arguments are persuasive.

Claims 2-7 are dependent on claim 1.

Claim 8 recites a compartment a compartment body defining a cavity adapted to store the one or more items and having an opening for gaining access to said cavity, said compartment body including a first connecting member integrally formed therein; and a cover including a second connecting member integrally formed therein, said first connecting member cooperating with said second connecting member to couple said cover to said compartment body, said cover being moveable between an open position, wherein said cavity is accessible through said opening, and a closed position, wherein said cover overlies said opening. In the appeal brief, the applicant argued that Schenk et al. has not disclosed the above limitations. The applicant's arguments are persuasive.
